Ramesh Priyankara

Software Engineering Undergraduate

priyankararamesh722@gmail.com — 076 457 6828

PROFESSIONAL SUMMARY

Motivated Software Engineering undergraduate with a solid academic background in programming, web technologies, and computer hardware systems. Experienced in applying theoretical knowledge through coursework, certifications, and hands-on technical training. Passionate about problem-solving, continuous learning, and developing efficient, user-focused software solutions.

EDUCATION

BEng (Hons) in Software Engineering   *Present*
ESOFT Metro Campus

- Studying core software engineering concepts including system analysis, software design, and development methodologies.

- Gaining exposure to modern programming practices, databases, and web application development.

Higher National Diploma (HND) in Software Engineering
ESOFT Metro Campus

- Built a strong foundation in programming, object-oriented principles, and problem-solving techniques.

- Completed academic coursework focused on application development and IT systems.

Diploma in Information and Communication Technology (ICT)
ESOFT Metro Campus

- Learned fundamental IT concepts including computer systems, basic programming, and productivity tools.

NVQ Level 4 – Computer Hardware Technician
National Vocational Training Institute (NVTI)

- Gained hands-on experience in computer hardware installation, maintenance, and troubleshooting.

- Developed skills in fault diagnosis and system repair.

TECHNICAL SKILLS

- **Programming Languages:** C, C#, HTML5

- **Web Technologies:** HTML, Basic Web Application Development

- **Databases:** MySQL (Academic exposure)

- **Tools:** Microsoft Office, Adobe Photoshop

- **Hardware:** Computer Assembly, Hardware Troubleshooting, System Maintenance

CERTIFICATIONS & TRAINING

- **Code Master 2.0 Hackathon – ESOFT Metro Campus (Matara)**
  Participated in a competitive programming and problem-solving event, improving teamwork, leadership, and analytical skills.

- **Computer Hardware Technician – NVQ Level 4**
  Completed nationally recognized vocational training focused on practical hardware troubleshooting and system maintenance.

- **Diploma in Information Technology – Level 3**
  Acquired foundational knowledge in IT systems, software usage, and basic programming.

- **Introduction to C Programming – SoloLearn**
  Learned core programming concepts including variables, control structures, and basic algorithms.

- **Introduction to HTML – SoloLearn**
  Gained knowledge of HTML structure and best practices for building basic web pages.

SOFT SKILLS

- Strong problem-solving and analytical thinking

- Effective teamwork and communication

- Willingness to learn new technologies

- Good time management and adaptability

CAREER OBJECTIVE

To secure an internship or entry-level role in software engineering or information technology where I can apply my academic knowledge, enhance my technical skills, and contribute to developing reliable and user-friendly software solutions while gaining valuable industry experience.
